Topic: *In March 2008, the U.S. Congress passed HR 5522: Worker Protection Against Combustible Explosions and Fires Act of 2008. The bill was passed due to findings that an emergency exists concerning worker exposure to combustible dust explosions and fires. The seminar will discuss the background of this act of Congress, including the causes and conditions that lead to explosion hazards and the likely outcomes of HR 5522.*

Speakers: [Honorable William Wark](#), Chemical Safety Board; Amy Spencer, National Fire Protection Association; John Newquist, Regional Coordinator OSHA

Co-hosted by the Chicago Chapter of Society for Risk Analysis and the University of Illinois At Chicago Great Lakes Center for Occupational Safety and Health
